The specifications and/or plans for this plumbing product have been reviewed and determined to be in compliance with chapters Comm 82 through 84, Wisconsin Administrative Code, and Chapters 145 and 160, Wisconsin Statutes.

The Department hereby issues an approval based on the Wisconsin Statutes and the Wisconsin Administrative Code. **This approval is valid until the end of DECEMBER 2014.**

This approval is contingent upon compliance with the following stipulation(s):

- This tank must be designed to withstand the pressures to which it will be subjected.
- The manufacturer must keep at the manufacturing plant a set of plans and specifications bearing the department's stamp of approval. The plans and specifications must be open to inspection by an authorized representative of the department.
- Installation and servicing of this product must be in accordance with the manufacturer's instructions. A copy of the manufacturer's installation and servicing instructions must be given to the owner of the system.
- This product may not be installed more than 36 inches below final grade.
- A minimum 2" diameter vent must be provided on the building sewer within 12" of the connection to the tank or on the tank installed in accordance with the manufacturer instructions.
- **BEDDING: Compacted aggregate confirming to tank base at depth and diameter as per manufacturer's installation instructions; dewater excavation prior to installation.**

This approval supersedes the approval issued on 12/13/2004 under product file number 20040224.
